Professional Summary

Computer Science and Engineering undergraduate at NIT Silchar with a strong foundation in Data Structures, Algorithms, and Object-Oriented Programming. Passionate about building scalable systems, real-time web applications, solving complex problems, and continuously learning modern technologies to create impactful software solutions.

Education

National Institute of Technology Silchar, Assam, India	Aug 2024 – June 2028
Bachelor of Technology in Computer Science and Engineering	CGPA: 8.21 / 10
Class XII	2023 — Percentage: 89%
Class X	2021 — Percentage: 93%

Technical Skills

Languages: C++, C, Python, JavaScript, SQL
Web Technologies: HTML, CSS, JavaScript, React
Frameworks & Tools: FastAPI, Node.js, WebSockets, MediaPipe, Git, GitHub, VS Code, Netlify
Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, REST APIs, Real-Time Systems
Soft Skills: Leadership, Event Management, Public Speaking, Technical Writing

Projects

FocusFlow – Real-Time Focus Tracking Web Application	2025
Tech Stack: Python, FastAPI, WebSockets, MediaPipe, JavaScript	GitHub
- Engineered a browser-based focus tracking system using MediaPipe Face Mesh, detecting gaze direction and attention state at 30 FPS with real-time accuracy. - Designed and deployed a FastAPI backend with WebSocket endpoints, enabling low-latency bidirectional data transmission between the client and server. - Built a session analytics pipeline to process and store focus metrics, enabling attention pattern visualization and performance reporting. - Implemented a clean front-end and back-end separation architecture, allowing independent upgrades and improving maintainability.	
Web Browser Simulation	2026
Tech Stack: C++, OOP, STL	GitHub
- Developed a web-based browser simulation in C++ applying object-oriented design principles for modular and maintainable code structure. - Implemented stack-based navigation history and multi-tab management, replicating core browser functionality in a terminal environment. - Applied object-oriented principles such as encapsulation, inheritance, and abstraction to create reusable and maintainable components. - Collaborated in a team environment using Git for version control; handled navigation logic, page operations, and cross-module debugging.	

Positions of Responsibility

Executive	Aug 2025 – Jun 2026
Computer Science Society, NIT Silchar	
- Coordinated planning and execution of society events, workshops, and technical sessions for a community of CS students. - Managed cross-team communication and logistics, ensuring smooth operations and timely delivery of activities.	
Junior Executive	Aug 2025 – Jun 2026
Illuminits, NIT Silchar	
- Vocal Skills Club: Led organization of multiple events, improving coordination, performance quality, and audience engagement. - Literature Club: Managed literary events and content initiatives, boosting participation and fostering creative collaboration.
